

CHAPTER 12

EDUCATION

The importance of education in fostering socio-economic growth is well recognized and accepted. Education has not only a direct role in Human Resource Development but also plays a critical facilitative role in almost all developmental aims. Improved educational attainment has significant linkage with many other indicators of social well being.

Evolution of Education

The evolution of education in A & N Islands dates back to the end of the 19th Century when the first Primary school in the Islands was established in 1881-82 for the prisoners and their children. This school was started in a hut and was provided with a double storied building during 1890. As per the Administration report for the year 1891-92, a Eurasian school was running at Port Blair for which a grant of ` 600/- was given out of `3000/- set apart for education by the Govt. of India. It was a single teacher school, which followed the syllabi, curriculum and code of Punjab Education Department with Urdu as the medium of instruction. Since 1895, the enrolment in this school started increasing so much that during 1900, the local Administration had to start six more Primary School in and around Port Blair. One of these schools was Anglo-Vernacular and was upgraded to Middle School in 1904-1905, still following the code of Punjab Education Department. It was in 1905-1906 that an Inspector of schools from Bengal inspected the schools in the penal settlement of A&N Islands.

After the First World War, in 1920, the Middle School at Port Blair was upgraded to High School with English as medium of instruction and affiliated to Rangoon University. Later this Institution was upgraded to the status of a High school with English as its medium of instruction and Urdu as a major language. The High School at Port Blair was then affiliated to Rangoon University. There used to be two public examinations one at the end of 7th class and the other at the end of 10th class. In 1922, a separate Primary School for Girls was also started but was subsequently abolished. In 1936, with the separation of Burma from India, the High School was affiliated to Punjab University. At Car Nicobar, the missionaries had taken up the task of spreading education and by 1939-40, there were five missionary schools.

During the Second World War, in March 1942, these Islands were occupied by the Japanese Army and till 1945, until the end of the war; they tried to introduce their own system of education and the teaching of Japanese language in the High School at Port Blair. Later on, when the British re-occupied these Islands, the work relating to the rehabilitation of educational institutions was taken up earnestly. The Assistant Director of Public Instruction, West Bengal was sent to these Islands to inspect the educational condition and prepare a report. As a result, one High School at Port Blair with eight Primary Schools in adjoining villages and one Middle School at Car Nicobar were re-opened during 1946-47 itself with a total enrolment of 1013 students.

Till 1947 there was no Education department in this Islands and the Deputy Commissioner of the Islands was functioning as the controlling officer of the Education Department in his capacity as President of Education Advisory Committee. In the year 1946, 12 Schools were functioning comprising one High School, One Middle School, Eight Primary School and One each of Karen and Burmese school. The Education needs of the territory could receive earnest attention only after Independence. During the year 1948-49, a total 20 educational institutions were functioning with an enrolment of 1620 students and 51 teaching staff. Awareness for education among the re-settled people and increased budgetary provision has ensured substantial growth in the sphere of education in the A & N Islands. Presently, there are 455 educational institutions functioning in the Islands with a total enrolment of 86467 imparting education from Pre-Primary to Senior Secondary level.

Statement 12.1

The Human Development Index (HDI) of A & N Islands in various fronts stands better as compared to its counterpart. The Literacy rate for the UT is 86.60 % has improved substantially between 2001 & 2011. The A & N Islands now Ranks 8 th in the Literacy among various States/UT in the country. The gap between the Male & Female Literacy has narrowed down from 11% in 2001 to 7.9% in 2011. The school dropout in A & N Islands has declined over the two decades and it is significantly lower than All India average. The Teacher Pupil Ratio of A & N Islands stands at 1:14.

The department continues to provide school education in 5 mediums of instruction viz Hindi, English, Tamil, Telugu and Bengali through a network of 330 educational institutions and is committed to provide easy access to schooling facilities at the reach of every habitation and more particularly for the benefit of Tribal areas and other under privilege sections of the Society.

Elementary/Secondary Education

The Govt. of India attached great importance to the elementary education and has accepted the Universalization of Elementary Education (UEE) as the National goal wherein free and compulsory education of satisfactory quality should be provided to all children up to the age of 14 years. For this purpose a new scheme viz. Sarva Shiksha Abhiyan (SSA) has been evolved to pursue the UEE in a mission mode covering the entire country subsuming within itself all major government educational interventions. The Islands have almost achieved the target of 100% enrolment of all the out of school children despite various constraints like natural calamities, geographical spread, remoteness and isolation of Islands, transport and communication associated problems

and maintain the retention level by extending various incentives and adopting various strategies/ interventions to check the dropout rates and improve the level of achievements/quality of education in the schools. It is not only a pedagogic challenge but also a challenge to the entire set up of the education system.

The Secondary Education is being considered a crucial stage in the educational hierarchy as it prepares the students for higher education and also for the world of work. The government of India has taken a step ahead formulating Rashtriya Madhyamik Shiksha Abhiyan (RMSA). In order to meet the challenges of the Universalisation of Secondary Education, and the need for a paradigm shift in the conceptual design of Secondary Education, the guiding principles are Universal Access, Equality and Social Justice & Relevance and Development in curricular and structural aspects. The UT Mission Authority has received a GOI share for preparatory work to strengthen the CRC/BRC/State Project Office and awareness among the stake holders. The UT Mission Authority has initiated imparting training under this Programme.

Institutions of School Education

The number of schools which were 82 during 1960 has gone up to 463 as on 30.09.2016. In 1960 there were 3 secondary level schools which have risen to 63 Senior Secondary Schools as on 30.09.2016.

RTE Act- 2009

The Right of the children to Free and Compulsory Education ACT- 2009 has come in to force w.e.f 01.04.2010. The RTE Rules have also been notified by the Central Govt, on 8th April 2010. Subsequently all private Aided, un-Aided, Local Body schools have been recognized under the Act. 25% of seats of the Class I have been reserved for children belonging to weaker section and disadvantage group and are provided with free education. The schools under UT Administration provide free uniform, Text Books, and Stationeries including Notebooks to all the children studying in class 1-VIII. Right to education Protection Authority (REPA) has been constituted to monitor any violation of rights of child under RTE ACT.

Mid Day Meal Programme

A mid-day meal Scheme (MDMS) covers all students at elementary stage in Administration. Local Body and aided schools of the UT. 15248 students of Primary Stage and 10779 students of Middle stage were provided with cooked Mid day Meals during the year 2016-17. This UT Administration provides unpeeled boiled eggs twice a week to all the students enrolled in pre primary to Upper primary Stage as supplementary nutrition. For effective monitoring of the Scheme Midday Meal committees have been constituted at block, District and State level. National Programme of Nutritional support to Primary Education (NPNSPE) is implemented in 338 Govt., Govt. aided and Local Body schools in the Islands.
